ABOUT BPC

Butwal Power Company (BPC) is one of the leading companies in Nepal's power sector with generation and distribution as its core business areas. Incorporated in 1965 as private company and converted into public limited company in 1993, BPC has a track record of pioneering multi faceted capacity building initiatives in hydropower development.

Pursuing the privatization process, in 2003, the Government of Nepal handed over majority ownership and management control to private investors on public-private partnership model. BPC is registered with the Securities Board of Nepal and listed in Nepal Stock Exchange Limited.

Starting off with electrification plan of a small city in the south central Nepal, BPC is the only enterprise which can look back to a four decade long history of

success, sustained growth and capacity building in the country.

Through its subsidiary companies, BPC is engaged in operation & maintenance of power plants, consulting engineering of hydropower and infrastructure projects, manufacturing and repair of hydro-mechanical and electro-mechanical equipment for power plants.

BPC is committed to operational excellence and believes in good governance, corporate citizenship and creating value for stakeholders.

CORPORATE SOCIAL RESPONSIBILITY POLICY

BPC recognizes its corporate social responsibilities and is committed to improving environmental, social and economic sustainability as an integral part of its processes and business operations. We endeavor to join hands with host communities in the protection of the environment and in social upliftment through shared responsibility.

OUR CORE VALUES:

Customer Focus:

We seek to understand the customers' needs and strive to deliver the best as professionals.

Transparent:

We are transparent in our business and financial transactions.

Proactive:

We explore and look for solutions, opportunities, partnerships to improve our business.

Team Work:

We work together with mutual respect and trust to achieve results.
